

Europa International Salon & Spa is proud to present a new treatment:

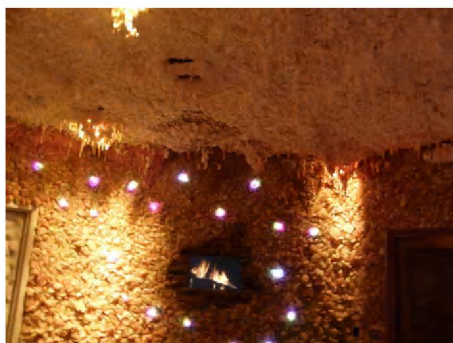

## "Taste of the Himalayan Salt Cave"

Today, thanks to the spiritual renewal of our society, we are once again embracing the natural, holistic remedies to benefit our body, mind and spirit. People all over the world are experiencing the healing effects of natural crystal salt.

Himalayan Crystal Salt, one of the most unique natural elements, is said to contain the energy of the Sea, the Earth, the Sun, and the stars. Since the times of Hippocrates, the father of medicine, salt caves were known for their therapeutic features. Natural crystal salt has been used as a holistic treatment for centuries by kings, emperors and sultans. In the medieval age, the sick were exposed to the salt particles in the air created by crushing the stalactites in the caves.

Salt therapy is a natural remedy beneficial for everyone, regardless of age. It is known to be helpful in treatment of many conditions: asthma, chronic bronchitis, cough, sinusitis, ear infection, rhinitis, hay fever, respiratory allergies, cystic fibrosis or tonsillitis.

*Your rejuvenating treatment will last 45 minutes.*

*You will be surrounded by an incredible guided relaxation video inside the realistic cave made out of natural chunks of Himalayan Salt. Walls and ceiling will reflect calming music accompanied by the soothing sounds of the waterfall, spectacular lights of glowing crystals and a fresh scent of pure oxygen.*
